

SYSTIUM® MODEL 132 MINI PRELIMINARY

The *Systium® Model 132* is a “mini” series ITX 12 Volt form factor . This unique, low power, long life platform offers wall mounting tabs, an easy integration flip up cover and a standard I/O shield. With Systium’s Thermistor based Fan Control Module cooling is possible for even the most taxing environments. CSA-UL, FCC-CE Certifications make this your perfect choice. Available with or without certifications.
