

SYSTEMIUM® MODEL 133

The Systemium® Model 133 is a Small Form Factor platform optimized for graphic intensive motherboards. This platform is perfect for those systems needing more CPU horsepower and/or 1080p performance plus dual Hard Drives for Raid. Flexibility is key which is why the 133 comes with two power supply options and integrated wall mounting tabs. We've made the design ultra cool with our Fan Control Module and a best in class vent design to ensure the best CPU Cooling.

Features

- Low Profile
- Multiple PFC Power Supplies offered
- Wall Mounting Tabs integrated
- Dual HDD for Raid

- **Model 131**– 1.5 x 7 x 7" 12V ITX
- **Model 132**– 2.3 x 7" x 7" 12V ITX
- **Model 214**– 3 x 12 x 8" ITX, 200W
- **Model 215**– 3.2 x 12 x 11.5" ITX with Slim line CD bay

Accessories:

- 38mm, 65W TDP Heat Sink
Long life, low profile: [10312-00](#)
- Fan Control Module: [10705-00](#)

Specifications

- **Motherboards:** ITX
- **Power Supply:** 200W PLA (270W PLA– optional)
- **Drives: External** NA
- **Drives: Internal** 2– 2.5"
- **Add in Cards:** NA
- **Cooling:** 1– 60mm fan
- **Control Panel:** Power Rocker Switch
- **Front Panel Indicators:** Power LED, HDD Activity
- **Unit Dimensions:**

Weight

4.75 lbs.

w/packaging

5.85 lbs.

	<u>H</u>	<u>W</u>	<u>D</u>
	2.59" (66mm)	11.2" (282mm)	7.75" (179mm)
	5.5"	15.25"	10.25"

- **Certifications:** There are no certifications as of the printing of this datasheet. Please contact Systemium for further updates.
- **Approved Motherboards:** NA
